

Carbon Reduction Plan

Supplier name: Fleet Service Limited

Publication date: 27th April 2026

Commitment to achieving Net Zero

Fleet Service Limited is committed to achieving Net Zero emissions by 2050.

Baseline Emissions Footprint

Baseline emissions are a record of the greenhouse gases that have been produced in the past and were produced prior to the introduction of any strategies to reduce emissions. Baseline emissions are the reference point against which emissions reduction can be measured.

Baseline Year: 2024	
Additional Details relating to the Baseline Emissions calculations.	
<i>The current year is the second year in which the Company calculates its emissions</i>	
<i>The year 2024 remains the baseline year.</i>	
Baseline year emissions:	
EMISSIONS	TOTAL (tCO₂e)
Scope 1	1334
Scope 2	11
Scope 3	Not measured or carried out by company. Calculation not applicable.
Total Emissions	1345

Current Emissions Reporting

Reporting Year: 2025	
EMISSIONS	TOTAL (tCO ₂ e)
Scope 1	1327
Scope 2	10
Scope 3	Not measured or carried out by company. Calculation not applicable.
Total Emissions	1337

Emissions reduction targets

In order to continue our progress to achieving Net Zero, we have adopted the following carbon reduction targets. We project that carbon emissions will decrease over the next five years to 1255 tCO₂e by 2029. This is a reduction of 6.5%

Carbon Reduction Projects

Completed Carbon Reduction Initiatives

Fleet Service Limited has prioritised energy saving and efficiency, with measures including the optimisation and configuration of hardware and equipment such as computers to use less electricity outside of working, since the 2024 baseline. The carbon emission reduction achieved by these schemes equate to 1 tCO₂e, a 10% reduction against the 2024 baseline and the measures will be in effect when performing terms outlined within contractual requirements set out by tenders and customers.

Future Carbon Reduction Initiatives

In the future we hope to implement further measures such as:

- Completion of move and set up of equipment at new premises
- 15% Reduction of business travel
- 50% LED light installation in workspaces
- Replacement of obsolete and older vehicles with new emission friendly vehicles

Declaration and Sign Off

This Carbon Reduction Plan has been completed in accordance with PPN 06 and associated guidance and reporting standard for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard and uses the appropriate [Government emission conversion factors for greenhouse gas company reporting](#).

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements and the published reporting standard for Carbon Reduction Plans.

This Carbon Reduction Plan has been reviewed and signed off by the board of directors.

Signed on behalf of the Supplier:
